Design Effect ORIGINAL

A line graph showing the Average Weight per Tow (kg) over time from 2009 to 2022. The y-axis is labeled 'Ave Wt/Tow (kg)' and ranges from 0 to 6. The x-axis is labeled 'Year' and shows major ticks for 2010, 2015, and 2020. The data is plotted as a red line with open circle markers and vertical error bars. The average weight starts at approximately 4.3 kg in 2009, drops to 2.4 kg in 2010, rises to 4.3 kg in 2011, and then fluctuates between 1.5 kg and 3.5 kg through 2022.

Year	Ave Wt/Tow (kg)
2009	4.3
2010	2.4
2011	4.3
2012	3.2
2013	2.9
2014	3.5
2015	2.8
2016	3.3
2017	2.0
2018	1.5
2019	1.8
2020	3.1
2021	2.3
2022	1.5
